MR. DALLAS AND THE BRITISH GOVERNMENT .--Ma. Dathas and the Barrian Government.—
The London correspondent of the New York Journal of Commerce says the general opinion in London is, that Mr. Trampton's dismissal will be followed by the dismissal of Mr. Ballas. This, however, the writer does not believe, and he adds that great exertions are making, and by powerful men, to influence the Government not to tender Mr. Dallas his passports, and the writer is of opinion that they will not fail. It is proper to state that Mr. Dallas has exercised no agency, directly or indirectly, on the subject; but there is such an bounded confidence, in every intelligent circle in the metropolis, in the rectitude of his heart, that his retention is universally desired. The writer adds:

"If Gen. Pierce will give to Mr. Dullas the ex-clusive control of all the matters in dispute between Great Britain and the United States, he will have the pleasure of handing over to his successor on the 4th of March next a clear record as far as relates to that country, and a most satisfactory one as concerns the interests of the Union. It is certain that a successor to Mr. Crampton will not be appointed until after the installation of a new President."

We have had the pleasure of seeing, and now have in our possession, a letter from R. W. Seymour, Eaq., of Charleston, to Mr. Thomas J. Ecoles, congratulating him upon his full acquittal, by a jury, of all charges against him. As the various indictments against Mr. Ecoles were made matters of public notoriety by the papers of the State, his established innocence should be made oqually public, as a matter of sheer justice.

A queer seens occurred in a prayer meeting in Essex, N. J., a week or so ago. Deacon Morris was leading the exercises, and after reading the account of the erection of the brazen scrpent by Moses, proceeded to remark upon the lifting up of the serpent so that the bitten Israelites might look upon it and be healed, when a striped snake made its appearance on the top of a partially opened door at the deacon's back, writhing its body and shooting out its forked tongue, to the no small condisdodged and killed.

Calumbia Market, June 21.—Corton.—The week just brought to a close has been a dull one as regards the sale and demand for our great staple, although in the latter part of it a better feeling sprung up, and prices did advance i a lon our last quotations.
